About Me

Software Engineer specializing in full-stack development, building efficient and user-friendly web applications that solve real-world problems. Enthusiastic about creating impactful web applications and exploring full-stack development opportunities.

Work Experience

Software Engineer (Full-Time) 09/2022 – Present

Reluvate Technologies

- Developed web-based solutions for multiple companies as part of 15+ AI-driven projects, leveraging cutting-edge technologies to solve real-world problems.
- Built AI chatbots to automate Customer Service responses, increase lead generation, and built a SaaS chatbot platform for general use.

Web Developer (Internship & Part-Time) 03/2021 - 02/2022

VeecoTech Web & Ecommerce

- Involved in over 40 projects and customized more than 30 websites.
- Developed a custom store locator function that eliminated the need for Google Map API, helped one of the clients to save more than USD150 per month.

Software Engineer (Freelance / Hobby) 08/2020 – Present

- Developed a web-based will builder with AI suggestion feature that allows users to build their will easily and connect to a lawyer when needed.
- Developed a web-based donation management system for a temple that eliminated manual record-keeping, enhancing accuracy and efficiency.

Education

Bachelor of Computer Science (Honours) 09/2018 - 09/2022

Universiti Sains Malaysia (USM)

Skills

Natural Languages

- English, Mandarin, Malay

Web Development

- TypeScript, NextJS, ReactJS, TailwindCSS, Shadcn UI, Convex, Prisma ORM, tRPC, Figma

Projects

Crystallize

NextJS / TypeScript / MUI / Django / Postgres / OpenAI / RAG / AI Agents

- Developed an all-in-one platform for a furniture company that handles Customer Service, Human Resources, Logistics, Accounts, and Procurement related functions.
- Included AI features for Customer Service (handling enquiries, rescheduling deliveries) and Procurement (extracting, categorizing, and matching documents).

AskTwinkle

NextJS / TypeScript / MUI / Django / Postgres / OpenAI / RAG

- Developed a web application for a trust company that handles document / video management, room / workstation booking management, and user management.
- AI chatbot for all users: simple trust enquiries for the public, advanced private questions for internal teams (more than 1000 internal users).

UtterUnicorn

NextJS / TypeScript / MUI / Django / Postgres / OpenAI / RAG / AI Agents

- Built an AI chatbot SaaS that enhanced customer engagement and streamlined internal operations, reduced customer response time and improved support efficiency.
- Trusted by 10+ companies across diverse industries.

MYS

NextJS / TypeScript / TailwindCSS / Shadcn UI / Convex

- Developed a web-based donation management system for a temple to help track donations and manage donor information.
- Replaced manual handwriting with automated label stickers, saved countless time on more than 600 labels per event.

Smart Chemical Inventory Management System (SCIMS)

Progressive Web App (PWA) / ReactJS / ExpressJS / NodeJS / MongoDB / TailwindCSS

- Designed and developed a full stack web and mobile applications from scratch.
- Used by lecturers and students from School of Chemical Sciences, USM.

Mailcraft

NextJS / TypeScript / TailwindCSS / Shadcn UI / Monaco Editor / React Email

- Built an online editor for creating and previewing email templates with ease.

Notify

React Native / Expo / Firebase / TypeScript / TailwindCSS

- Developed a mobile app that sends reminders when the premium payment is due soon.
- Used by my mother since 2023 and her clients haven't missed a premium payment since.

Automated Folder Creator

Python

- Developed a desktop app that creates folders when adding new clients and new policies.
- Used by my mother since 2020, saving time managing 100+ clients and 300+ policies.

Awards / Achievements

Silver Award in Project Innovation & Exploration in CS Education and Learning (PIXEL) 2022

- Won a silver award with my final year project (SCIMS) among 160+ projects.

Award Winner for Digital Talent Performance Award 2022

- 1 of the 5 award winners among 800+ digital talents trained under Digital Talent Program.

Top 5 in PYDC Web Design Competition 2021

- Top 5 among 80+ teams and 300+ participants in the competition.

National Finalist (Malaysia) in ASEAN Data Science Explorer (ADSE) 2019

- Represented USM and became 1 of the Top 10 teams among 380 teams from all over Malaysia.

Consolation Prize in National Instruments Autonomous Robotics Competition (NIARC) 2019

- Represented USM and won consolation prize among 11 teams from 5 universities.
